Profile

Experienced Front End Developer with a strong track record in the software industry. Known for excellent collaboration and team-oriented work style, combined with a proactive approach to learning new technologies. Proficient in JavaScript, React, HTML, CSS, and Git, with a demonstrated ability to create visually appealing and functional websites. Skilled at managing CSS styles and frameworks and developing optimized, cross-platform front-end code. Proven experience in integrating RESTful APIs. Experienced working effectively within Agile environments. Eager to contribute these skills in a dynamic team setting.

Employment History

Software Engineer II, Bank of America, Dallas

NOVEMBER 2022 – MAY 2023

- Developed high-performance, enterprise-scale web applications using React.js
- Worked in an Agile, CI/CD environment.
- Built HTTP clients in the browser with XHR and Fetch-based frameworks and integrated REST APIs.
- Managed version control and source code using Git, while also utilizing LESS/SASS for styling.
- React, JavaScript, TypeScript, Bitbucket, Jira, Git, NPM

Front End Developer, Innova Technologies, Fort Worth

APRIL 2022 – NOVEMBER 2022

- Designed, built, and maintained proprietary software applications based on specific business requirements.
- Improved the performance of existing software by identifying and addressing bugs and issues.
- Developed new features that allowed customers to easily track sales goals, resulting in the acquisition of new customers. Collaborated with the design team to create a modern and user-friendly interface for the new feature, resulting in positive feedback from both customers and support staff.
- React, JavaScript, SQL, REST APIs, Bootstrap, CSS, NPM, Azure DevOps, Git, Github Desktop

Web Developer, Self/Freelance, Dallas

JUNE 2021 – APRIL 2022

- Designed, developed, and deployed websites and web applications using React.js and Node.js to create dynamic, interactive user interfaces.
- Utilized Git for version control to manage and collaborate on code with clients and other developers
- JavaScript, HTML, CSS, Bootstrap, Material UI, React, NPM, Git, MongoDB

Education

Software Development, Thinkful

FEBRUARY 2021 – JUNE 2021

- Developed proficiency in front-end technologies such as HTML, CSS, and JavaScript, including frameworks like React and jQuery
- Gained experience with back-end technologies such as Node.js, Express.js, and PostgreSQL
- Learned Agile methodologies and best practices for software development
- Built a portfolio of web applications, demonstrating skills in full-stack development, API integration, and database design
